JOB SETUP Number of Files Processed	TOTAL PAF VERIFIED	TOTAL ADDRESS RE-DIRECTIONS	TOTAL DUPES	TOTAL OTHER DELETIONS	TOTAL MPS	TOTAL GONE-AWAYS	TOTAL DECEASED
3	446,526	4,414	1,790	252	16	14,673	11,171

The Postcode Address File (PAF) is used to assess the quality of addresses within a file and update address elements that may be missing or incorrect.

Royal Mail's NCOA Update file will supply a forwarding address. This information is collected directly from the Redirection application forms completed by consumers who are in the process of moving home. Each year Royal Mail helps over 1.2 million people moving home redirect their mail.

System for removing names and addresses which appear in a list more than once.

System for removing blank addresses, overseas and generally poor addresses.

A list of names and addresses for consumers who have told the Direct Marketing Association (DMA) that they wish to limit the amount of direct mail they receive.

The GAS file is compiled from a reciprocal agreement with large direct marketing organisations.

Royal Mail's NCOA Suppress file provides details of goneaways from information collected directly from the Redirection application forms.

Experian Absolute Movers and Equifax disConnect are both sourced through their financial credit checking services.

* Mortscreen - List of deceased names sourced from probate.
* The Bereavement Register (TBR) - Sourced through funeral homes.
* disConnect Deceased - Equifax owned list sourced from financial info.
* NCOA Suppress Deceased - From the Royal Mail redirection data.
* MPS Deceased - People who have registered with the DMA
* National Deceased Register (NDR) - The only 100% fully validated deceased file on the market today. Of the 32,000+ records that we add to our file every month over 10,000 do not appear on any other file.

* Please note that the total number of "NCOA re-directions before suppression" may differ from the number of "NCOA re-directions after suppression". This is because a re-directed address was subsequently matched against a suppression file based on the new re-direction address.

** The number of Equifax reConnect addresses returned may drop slightly due to changes in the status of certain records with the list supplier.
